

Save a Child International Foundation

SACIF

At SACIF, we envision a world where children have the opportunity to learn and to reach their potential. We are an independent, secular foundation founded and operating in Canada since 2019.

SACIF Causes:

- We help children, regardless of their gender, race, nationality, and who they are or where they live.
- We are determined to reach the most vulnerable children in Canada and anywhere else in the world.
- We believe the future of our world will definitely correspond to the future of our children.
- We believe all children have the right to enjoy and be granted the chance to attend school, receive desirable educations.
- We believe that children in all societies are the most delightful innocent creatures, and at the same time, the most vulnerable ones and their situation can change dramatically, if left behind uncared, to the point that their world takes a turn for the worse before you know it.
- We believe, NOW is the time that we all must reach out and take children's hands and support them to earn their education.

CHARITY OPENING EVENT

WATCH IN YOUTUBE
<https://Youtube.com/watch?v=3LGTGGctXLk>

1- *Charity opening ceremony* was held on June 17th 2020, to officially launch SAVE A CHILD International Foundation. The event was held, on-line and four members of our advisory committee and board of directors spoke and shared the charity missions and visions.

2- Dr. Peyman Raoofi who is an International speaker and UNICEF Honorary Ambassador from Los angles, California has been our honored guest speaker that night. He recognized the importance of kids education through each society and valued our mission as one of critical needs globally. Now we are proud that we have Dr. Raoofi as the chairman of SACIF's board of directors.

3- Link to the president's speech article, during an introductory webinar demonstrating our goals, the world children's condition and perspectives and what we plan to do.

We did have other speakers that day.

Good Things Happen When People Come Together.

Virtual Music Event have been hosted by Save a Child International Foundation (SACIF) on Nov. 8th, 2020 and was streamed live on Zoom. The Event was two hours, musicians of different genres had embraced SACIF's Virtual concert, featuring a variety of eastern and western instruments. Rather than sold tickets' funds ,some more funds raised by attendees during and after the events, and all proceeds were used to help providing care and education to children in need . Aside from our working committee, we also had some volunteers artists who helped in playing instruments, singing beautifully with their heart for our event.

COVID 19 PANDEMIC & SACIF

kids are drawing pictures at home, having impacts of Corona virus Era, in mind

During pandemic, SACIF decided to encourage children at home, to put their feelings, having to stay home, in their paintings and send it to us to be posted at SACIF's website. Many children participated, and shared their interesting paintings, which can still be seen in SACIF's gallery. It's amazing to see how well and vividly kids could express their feelings into their painting for others to see.

SACIF WORLD CHILDREN'S DAY STATEMENT

SACIF Announced a Statement in this very important day, November 20th 2020.

The united nation has defined the November 20th as the universal children's day. [World Children's Day](#) is the day that leaders of all nations at the UN adopted the UN Convention on the Rights of children.

SACIF announced to support these rights too. Also stated that children are the ones who will shape the future of mankind. We, as adults all need to be reiterated that children should be respected, protected, and their rights should be fulfilled. The Covid-19 pandemic has disrupted several children's rights. Before the pandemic, there were 258 million kids out of schools and now we have a lot more.

SACIF STATEMENT included one of the UNs right which is :

The right to be educated

This right is the main cause that our charity (SACIF- Save a child International Foundation) was formed for.

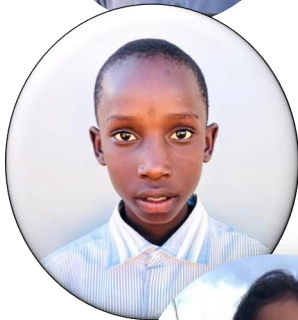

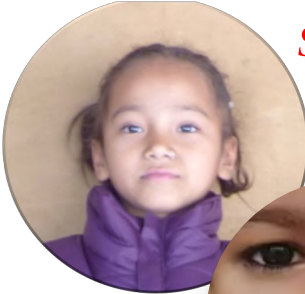

Together we can make this happen.

Let's remember that saving the world starts with saving a child.

SPONSORSHIP

Saving the World Starts with Saving A Child.

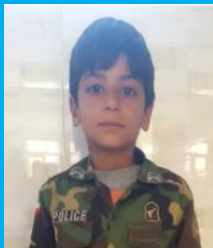

We are proud that with your support we were able to support 19 children just in the beginning by finding impassioned donors who eagerly obligated themselves to sponsor them.

The Children who were sponsored are from Afghanistan, Tanzania, & Nepal.

"A Real Story that Captures Hearts of any Human Beings"

Yasin

Elaha

Yasin (13) and Elaha (12), from Herat Afghanistan, orphans siblings, for long have been encountering various obstacles and burdensome in their lives, in a region overwhelmed with unbearable outcomes of wars, so big that no kid's spirit and heart at this age, could take. Despite the awful condition of living, Yasin had to work everyday while going to school too, to make a living for his family and hoped to earn enough money so that her sister would not need anymore to go to people's houses to wash dishes, just to survive .

Yasin was asked once, what would he do or think, if he finds out somebody is to cover all of his school costs, relieving him and her sister of the harsh works they are doing, so they could just concentrate on their education. While looked very astonished, responded:

"It's like God comes to me and tells me, from now on, I am your guardian and you have a new life"!

**If You
Want to
Change a
kid's Life,
and send
him/her to
school,**

**[Click
Here,](#)**

**[Be a Kid
SAVOR](#)**

And now, thanks to sponsors with great hearts like you, both have been sponsored and saved, moving forward and paving their path towards a much more stable and brighter future. Could you imagine how many millions of children right now, all over the world, are experiencing the same kind of life, as Yasin and Elaha, so would respond similarly to such questions? If only if, people would decide to step forward and sponsor a child with just 1 dollar per day (less than the costs of coffee per day for many people nowadays!) thousands of such children could be easily saved, attend schools and stay at schools until earning what actually is their indisputable right and deserve in life. That is when mankind could be more hopeful of having a better future to come.

Our Relationship with UNICEF Canada

By choosing to name UNICEF Canada as the SACIF's beneficiary, we help to create a brighter future for the world's children. In addition to one time donation to UNICEF, we have already started to become UNICEF's monthly donors, knowing Such funds would help assist them to do more for vulnerable children in the world. Also to help children education matters in Canada, we are planning to join a Co-fund raising event with UNICEF Canada in near future.

SACIF Contributed in a Project hosted by BCACCS

BCACCS hosts two Aboriginal Head Start (AHS) Preschools in Vancouver's urban environment for Aboriginal children aged 3-5 years old. All AHS site programs are based on a holistic approach to early childhood experiences which emphasize the needs of the child within the family, school, and community.

Volunteer Needed

We invite and welcome more people to join us and become a member of our foundation or an active volunteer.

OUR VISION

- Education is a very powerful means to improve children's quality of life. Not only does it provide them with the right mindset to nurture their career, but also it keeps them at school with a community that is tailored to their character; age-wise and with a common goal.
- Our main focus is to help them get a proper education. We are surely aware of those needs and extend our support to address those needs as well. This will definitely play a significant role in children's education and leads to more sustainable growth for them.
