Get ready for Another Event of Energetic Comedy and Music Show Smile To Bring Smile

Virtual Show and Music fundraising Event will bring your family together for one hour of entertainment, laugh and at the same time sending some children to school. It will be hosted on August 7th, 2021 by SACIF and it will stream live on Zoom. That night is going to be the biggest charity fundraising Event in 2021.

An international sensation comedian, hilarious actor and popular writer,  **Max Amini** Proudly will be with us for a highly anticipated performance at our Event.

Through an array of eccentric impressions and novel storytelling, Max's comedy delivers a strong message about family ties, cultural divergences and social topics.

Also, good news for all music lovers, we have musicians of different genres featuring a variety of eastern and western instruments that night as well. Attendance by Donation with net proceeds to Save a Child International Foundation in the mission of children's education.

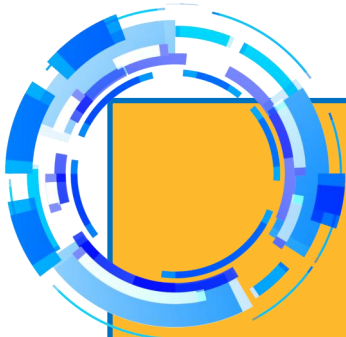

C\$15 for General Audience

C\$10 for Students

New Technological Achievements

Now we got one fully integrated and secure platform to manage our relation between our very generous donors and us. Zoho One gives us one integrated system to transform your business' disparate activities into a more connected and agile organization.

As we grow now, we need to focus more on our mission to help children this very user friendly platform hopefully will increase our productivity to deliver better service to our donors and volunteers.

Let's fight poverty, together

Look at These Children!

Just because they were born in poverty ...

The most common direct effects of child poverty are:

- Poor physical health
- Mental health problems
- Low sense of well-being
- Underachieving at school
- Poor employment prospects in adult life
- Social deprivation and stigma
- Lack of physical safety & security

**When we fight
together
Imagine what
we can do.**

Education is perhaps the most effective strategy to tackle poverty and is integrally linked to human, community and national development.

When people have basic life and literacy skills, economies grow faster and poverty rates decline. Children who have the opportunity to learn are able to eventually have a better lively hood and support their own families.

WE ARE HUNGRY TO DO MORE

We are very keen to collaborate with World Orphanage Foundation in more projects

SACIF has helped two successful projects with WOF

Project one: SACIF, in collaboration with WOF has provided food packages for about 1000 families in a remote village in Afghanistan.

Project two: WOF has commenced the project of potable water well for 2000 inhabitants of Kooch-Abd, Kabul, with an estimated cost of 11000 USD, and SACIF is proudly helping the implementation of such a vital project .

Our Relationship with UNICEF Canada

We have already started to become UNICEF’s monthly donors, knowing such funds would help them to do more for vulnerable children in the world. Also to help children education matters in Canada, we are planning to join a co-fundraising event with UNICEF Canada in near future.

BACK PACK BUDDIES

Back Pack Buddies works with schools across British Columbia in Canada and thru coordination with teachers/administrators and social workers reach out to the most vulnerable children, knowing a considerable number of B.C. families struggle to put food on the table every day. That’s why they help fill the weekend hunger gap - a time when children go without the support of school breakfast and lunch programs - by providing meals and snacks for the weekend directly to those who need them. We have started assisting them by a fund of \$450 and sponsoring 3 children for the whole period of summer.

Volunteer Needed

We invite and welcome more people to join us and become a member of our foundation or an active volunteer.

His name is Abdulaziz He is from: Saroby, Kabul, Afghanistan and he is 14 years old now. He is orphan. He and his brother carry goods of people from place to place on their Zarange(a type of small truck).

Abdul Aziz used to collect plastic bags and scrapped metal in the city in his part time which they try to support and feed their family members, sometimes it's hard for him to go to school because he has to work.

He was **sponsored** by one of you last year, and now he is telling you his story in this Video.

He is in High school **now** and as he said he is in firs position. He has a dream to be a teacher in future. You can watch his story and few more stories by clicking here:
